

The image features a white rectangular area centered on a dark red background. Two thin, dark red diagonal lines are present: one starts at the bottom-left corner of the white area and extends towards the center, and the other starts near the top-right corner and extends towards the center, creating a sense of depth or framing.

But our AI doesn't
have to be

About

"An algorithm cannot see the difference between patterns based on injustice vs patterns based on traffic"
